

Following the phenomenal RMO trading solution introduced with MetaStock 10, customers have been asking for more. The result is . NET RMO, which is currently available for beta testing for MetaStock users. In MetaStock RMO 10, R-Style Compiler (RSI) and R-Style C++ (RSI-C++) are also included in the update. These two tools help in integrating with R-Style MetaStock and R-Style MetaStock Pro. R-Style C++ is currently included in the beta version of R-Style Compiler. With R-Style Compiler (RSI + C++) clients can develop new signal types using R-Style MetaStock and R-Style MetaStock
