Next, we have something that just might have the greatest impact on real football: the improved AI. In each of the four disciplines of football--attacking, defending, midfield and goalkeeper--FIFA 22 will have a new and significantly improved AI. Finally, FIFA 22 also features the first ever Weather Player, which will change appearances and behavior based on the weather conditions of the match.

Speaking of improved AI, we're also excited to reveal the next addition to PES Club. Starting with FIFA 17, Clubs has included AI-controlled tactics, from formations to team selections, to player actions at the back. In FIFA 22, we'll add more football moves to the AI, and in-game difficulty levels for players based on their gameplay. Not only will FIFA 22 introduce HyperMotion Technology, "FIFA International Friendlies" mode, and new weather conditions, but it also brings the return of the popular Ultimate Team mode. Players can now form and customise their own Ultimate Teams via the new item system. In addition to 'FIFA Football' features, players can now compete in all 1.6 million licensed teams, leagues and tournaments across all FIFA titles. On top of this, players will now be able to share any created content in FIFA games--including training, on-field celebrations and the

ability to upload videos--on any other platform, allowing them to share their FIFA creations with the world. Finally, FIFA 22 brings real-world player likeness, a dynamic living-room, and new Master League features. The Master League is a new version of the innovative online mode, and enables players to join a Master League with their friends to compete in a season of top football matches. The ultimate League Masters will then be ranked across the whole world by EA Sports FIFA Club Champions, an addition that will reward the world's best players. FIFA 22 will be launched in North America on September 27 and in Europe on October 11, and will be available on Xbox One, Xbox 360, PlayStation 3, PlayStation 4, PC, Mac and mobile devices. ** PORTUGAL V AUSTRALIA ** ** AUSTRIA V USA ** ** FRANCE V SERBIA ** ** MEXICO V BRAZIL ** ** ASIA V NETHERLANDS ** ** MEXICO V BRAZIL ** ** ASIA V NETHERLANDS

Now, for the first time ever, build your very own dream team from over 40,000 players featured in FIFA Ultimate Team! (NOTE: The new FIFA Ultimate Team mode is not related to EA SPORTS FIFA 19 Premier League FUT Champions.) Create and customize the ultimate line-up of stars to play your game. FIFA Ultimate Team Champions – Prove yourself as a player by competing in monthly online FIFA Ultimate Team Champions tournaments. Challenge your friends and competitors around the world to be crowned as the ultimate team builder. The FUT Champions also feature a new revamped user interface, and boasts unmatched depth and customization in every league. Improved AI – Now you can react like the real players on the pitch in more realistic circumstances. The improved AI balances both offensive and defensive play to better challenge any gamer. Enhanced Skill Movements – Quicker and more realistic timing, improved player behavior, and increased accuracy of skills combined with full 360 degrees of freedom of movement. New Team Play – New Team Play lets you create multiple 5v5 match types and play them in either a first to score or first to achieve victory mode. Improved Card Management – Improved memory management and data storage to help you save and load more quickly. In addition, cards will now transfer between match types so you never have to find your favorite card again. Amazing new visuals with over 400 licensed players – The FIFA 22 game engine now features twice the amount of players, leading to more detailed and realistic soccer experience. In addition, the new lighting system more closely resembles the reality of the world’s best soccer matches. Realistic controls – Pressing the right stick forward or backward will pull your striker in that direction. If you press L, the opposite will happen. Press R to shoot with your right foot. If you press Z, you can activate your body pass. In addition, after successfully completing a pass, you’ll be able to use the right analog stick to switch player positions. Vibrancy enhancements – The impact of each player’s personality on the scene is more realistic and easy to see. Now, players are animated during free kicks, headers and penalty kicks, rather than simply standing still. Also, training AI players shows better determination and toughness in close situations. Redefined player actions – Players perform more precise actions on the pitch in a manner that feels more realistic and closer to real life. For example, players now anticipate moving into positions

FIFA (from Ultimate Team Modes) also includes the FIFA series of video games, along with FIFA tournaments for Xbox 360, PlayStation 3 and Microsoft Windows. In addition to Xbox 360, PlayStation 3 and Microsoft Windows, FIFA is also available on PlayStation Vita and

Nintendo 3DS. FIFA also includes EA SPORTS FIFA, EA SPORTS FIFA Street, FIFA Leagues and FIFA tournaments for Xbox 360, PlayStation 3 and Microsoft Windows. Along with Xbox 360, PlayStation 3 and Microsoft Windows, FIFA is also available on PlayStation Vita and Nintendo 3DS. EA SPORTS FIFA is a sports simulation franchise, in which gamers can control one of the licensed teams, compete in various sport competitions or create and manage their own club. What is FIFA Ultimate Team? FIFA Ultimate Team is a mode in FIFA, in which players can complete challenges set by other FUT players. FUT essentially allows players to play the game their way by creating a team of players and scoring an unlimited number of goals. Players can use in-game currencies to purchase packs of player cards, which can then be mixed and matched with existing player cards to create a starting lineup. FIFA Ultimate Team was added in the 2011 FIFA game. FIFA Ultimate Team is a mode in FIFA, in which players can complete challenges set by other FUT players.
